

Accountant/Controller (m/f/d)

As an accountant/controller, you report directly to the management of The meeco Group. Your work is the basis for many future business decisions.

In your position as an accountant/controller, you will organize all proceedings in the accounting departments, be responsible for a steady and smooth functioning of the internal accounting, the preparation of monthly reports on schedule and the preparation of annual financial statements. A further main focus of your work is the preparation of cash flow planning and project post-calculation for the management.

Our requirements for the advertised position:

- Completed training as an accountant
- At least 5 years of professional experience as an accountant
- Work experience in controlling
- Distinguished understanding of numbers and analytical skills
- Confident handling of MS-Office, in particular Excel
- Very good knowledge of German and English (business fluent) both spoken and in writing
- Confident appearance in an international environment
- Knowledge in the field of renewable energies is desirable
- The ability to work in a team, strong communication skills and a structured, independent and solution-oriented way of working round off your profile.
